

Prime Cargo A/S opens Transport Division in Poland

Prime Cargo A/S is delighted to announce that by October 1st 2016 we will open a transport division in addition to our current 3PL warehouse in Stettin, Poland.

In alignment with our strategy, we want to continue to offer our customers combined solutions within transport and logistics.

Therefore, we have been working strategically on establishing a transport division in combination with our logistics solution in Poland, where its key location in Stettin, offers customers a unique location to service important markets such as Scandinavian, North European and Eastern European markets.

Morten Høgsberg Nielsen, CEO of Prime Cargo A/S comments: “Stettin as an area is one of the fastest growing regions in Poland and its location offers unique opportunities for Scandinavian and international customers. We have over the last years worked hard to establish a unique 3PL setup and believe that now is the time for us to combine the services of our 3PL competences with the inbound and outbound transport.

I am equally excited that we have managed to recruit within our own organization and that Rene Minke has accepted the opportunity to become Transport Manager for this new division. This will ensure that our customers will get the high level of service and competences that they are familiar with from Prime Cargo A/S.

In addition, the new Transport Manager of Prime Cargo Poland Sp. z o.o., René Minke, is delighted by this new adventure:

“I look forward to establish this department in Stettin, which will enable us to give even better service for new and existing customers with direct transport out of Poland. We can offer all transports, sea, air, courier, road, project etc. We already have extensive knowledge of Poland and know how due to our Warehouse facility in Stettin”.

The contact details for the Transport Division in Stettin will be:

Prime Cargo Poland Sp. z o.o.

Prologis Industrial Park, DC2
ul. Prosta 16
Łozienica
72-100 Goleniów
Poland
